

Title of the Training Programme	Development of novel sheep fur-based value-added articles.
Type of the Programme	Skill upgradation Programme
Aim of the Programme	The workshop aimed to impart practical knowledge and skills to participants in novel design development for the creation of diversified value-added sheep fur articles. The programme focused on skill enhancement in cutting, stitching, aesthetic improvement, durability, functionality, and the application of appropriate finishing techniques aligned with market demand. As an outcome, participants gained hands-on experience in developing a range of fur-based articles, enhanced their technical and entrepreneurial competencies, and strengthened their capacity to produce high-quality, market-oriented products, thereby improving income generation and the sustainability of fur-based enterprises.
